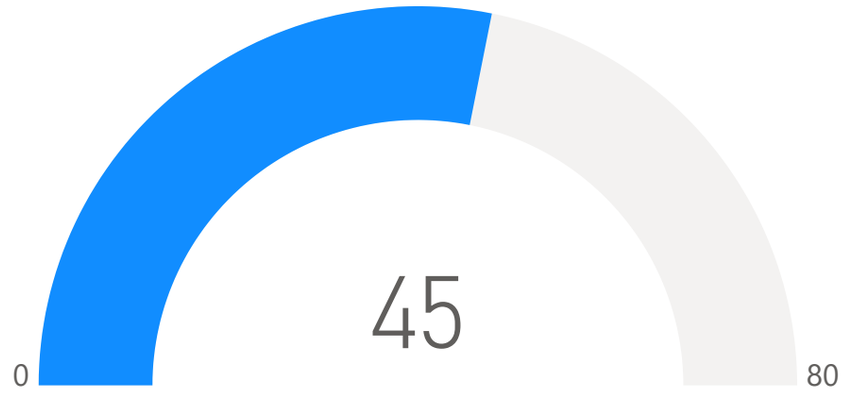
Executive Overview – Current Event Snapshot

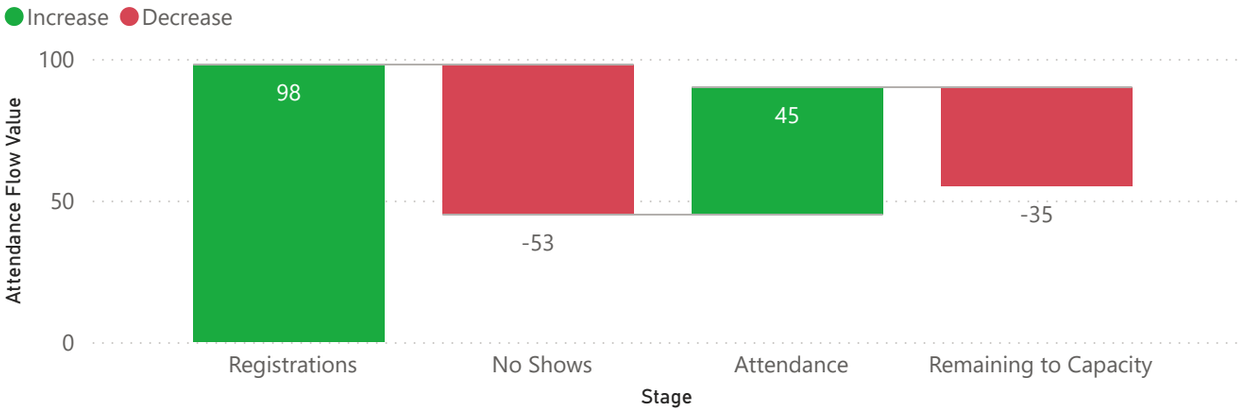
Based on current registrations and historical 2026 attendance trends

Avg Show Rate	Current Registrations	Estimated Attendance	Empty Seats	Overbooking Needed	Retention Rate
45.8%	98	45	35	2.18	20.2%

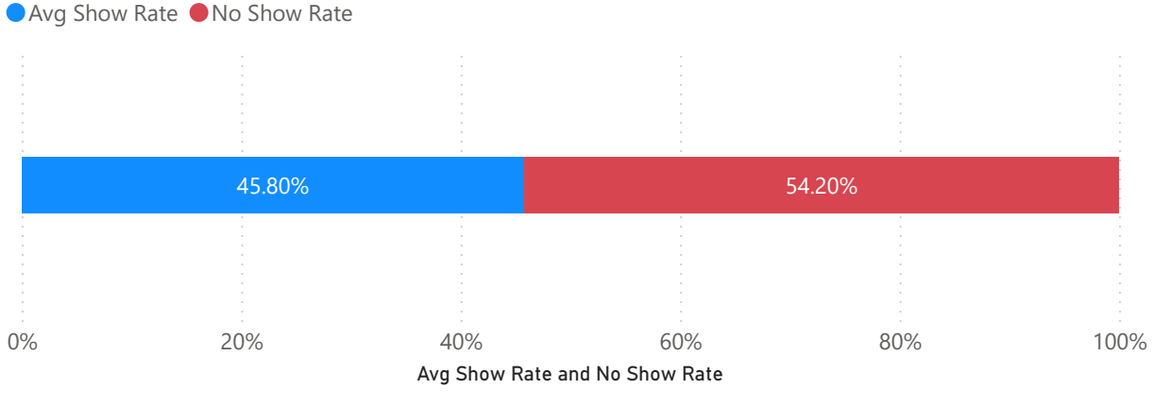
Expected Attendance vs Capacity



Attendance Drop-Off Analysis



Avg Show Rate and No Show Rate



Key Insights

Low show rate (~46%) results in a significant drop-off from registrations to actual attendance.

Out of 98 registrations, only ~45 attendees are expected, leaving ~35 empty seats per event.

To consistently reach full capacity (80), approximately 175 registrations are required (~2.2x overbooking).

Event Performance Analysis

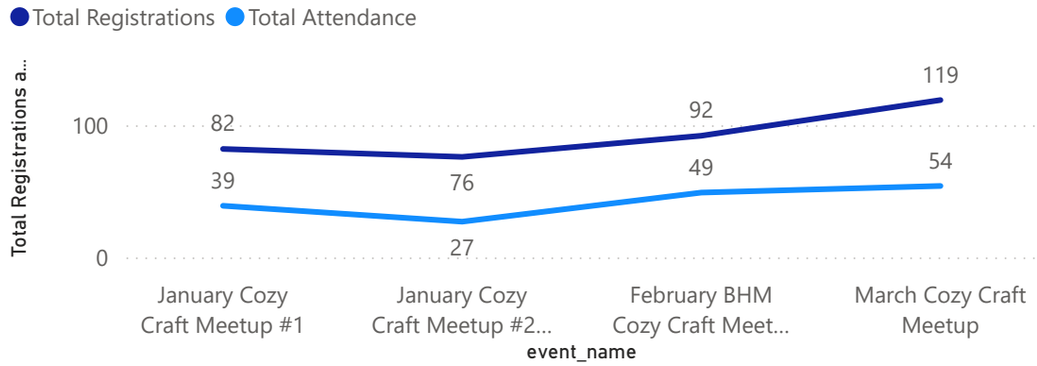
Registration trends, attendance behavior, and event-level performance (2026)

event_name

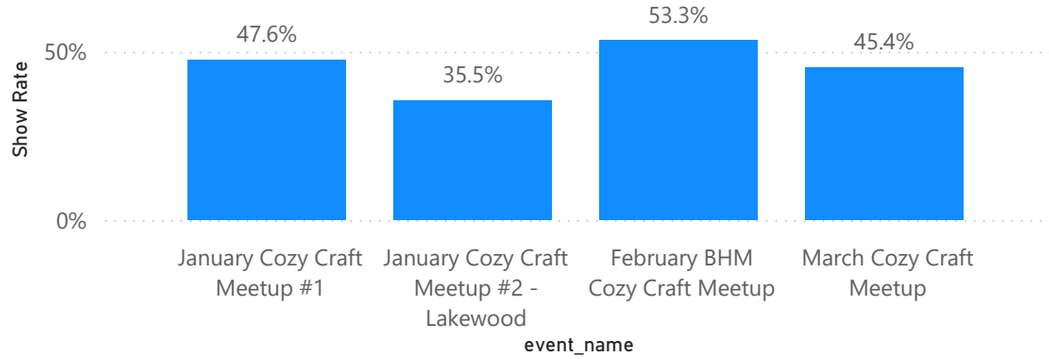
All

Total Events	Avg Registrations	Avg Attendance	Show Rate	Avg Empty Seats
4	92	42	45.8%	38

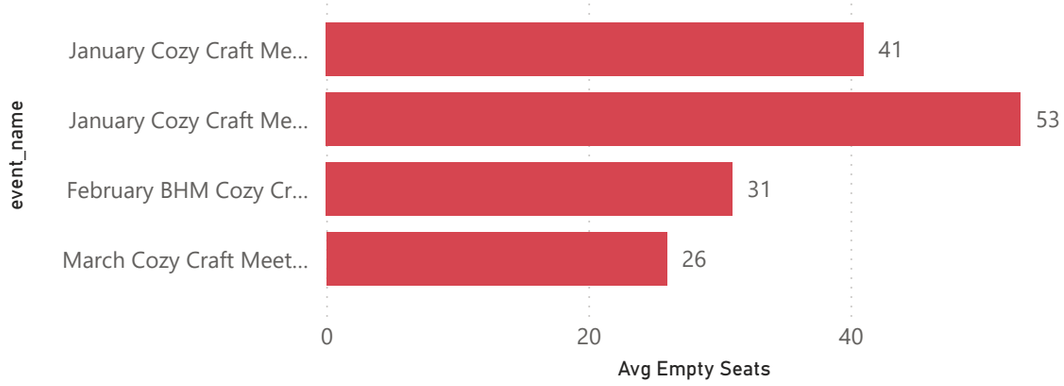
Registrations vs Attendance by Event



Show Rate by Event



Empty Seats by Event



Key Insights

Event performance shows that higher registrations do not always lead to higher attendance.

February had the strongest show rate (~53%), while January Event #2 was lowest (~35%), creating the largest capacity gap.

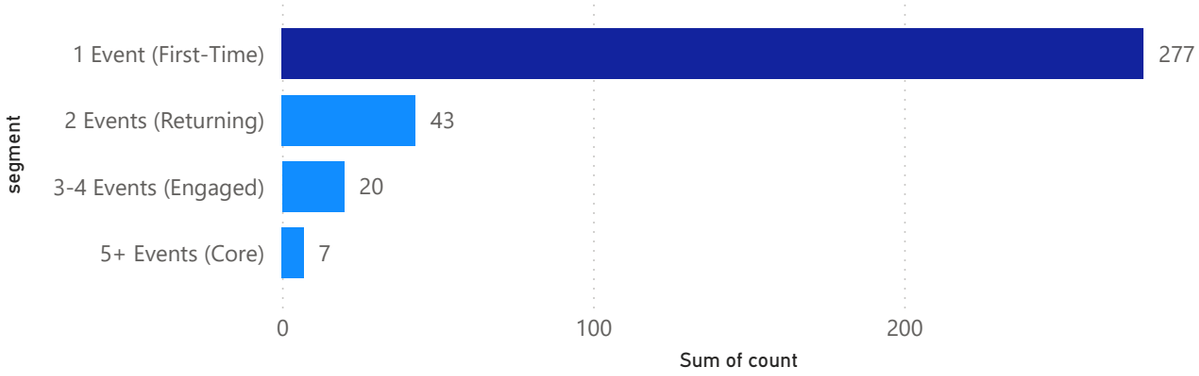
Overall, inconsistent attendance—not demand—is the main driver of empty seats.

Community & Retention Analysis

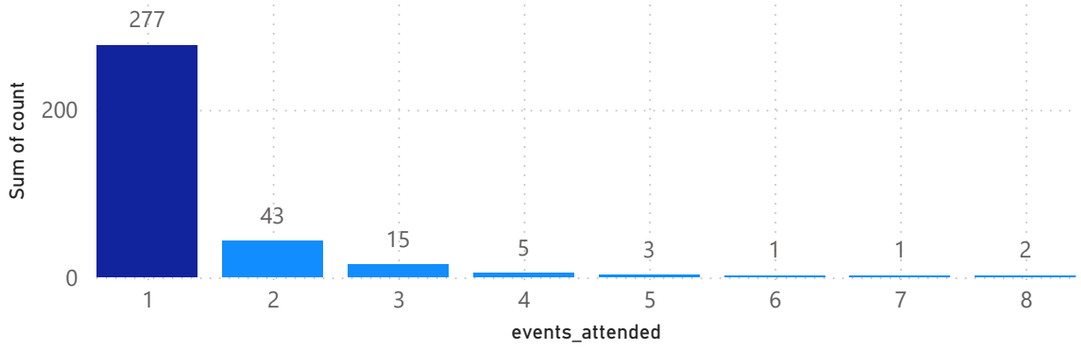
Audience composition, repeat behavior, and loyalty segmentation

Total Attendees	First-Time Attendees	Repeat Attendees	Retention Rate	Core Members (5+ Events)
347	277	70	20.2%	7

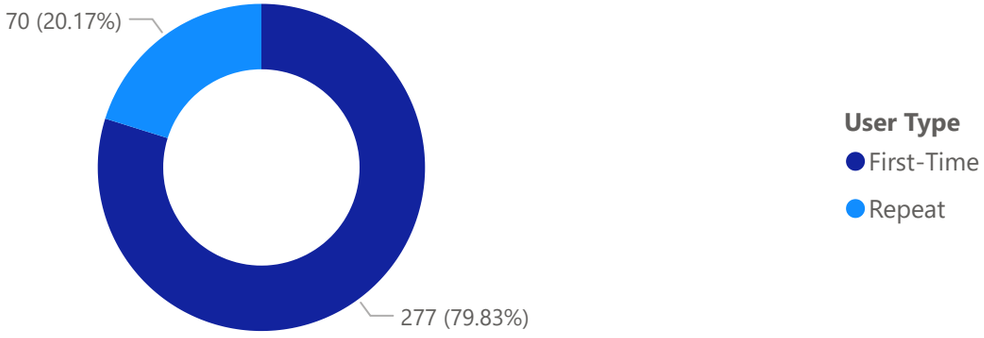
Loyalty Distribution



Engagement Depth (Events per Attendee)



First-Time vs Repeat Attendees



Key Insights

Most attendees are first-time participants (~80%), with only ~20% returning.

Repeat attendance drops off sharply after the second event, with very few attendees reaching 3+ events.

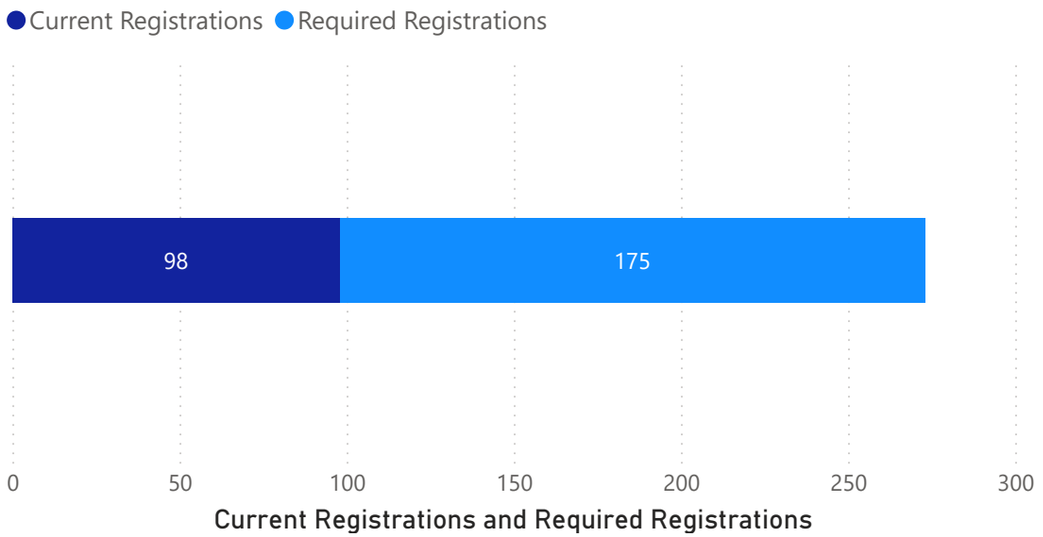
A small core group exists, but overall retention remains low, indicating an opportunity to improve long-term engagement.

Forecasting & Capacity Planning Analysis

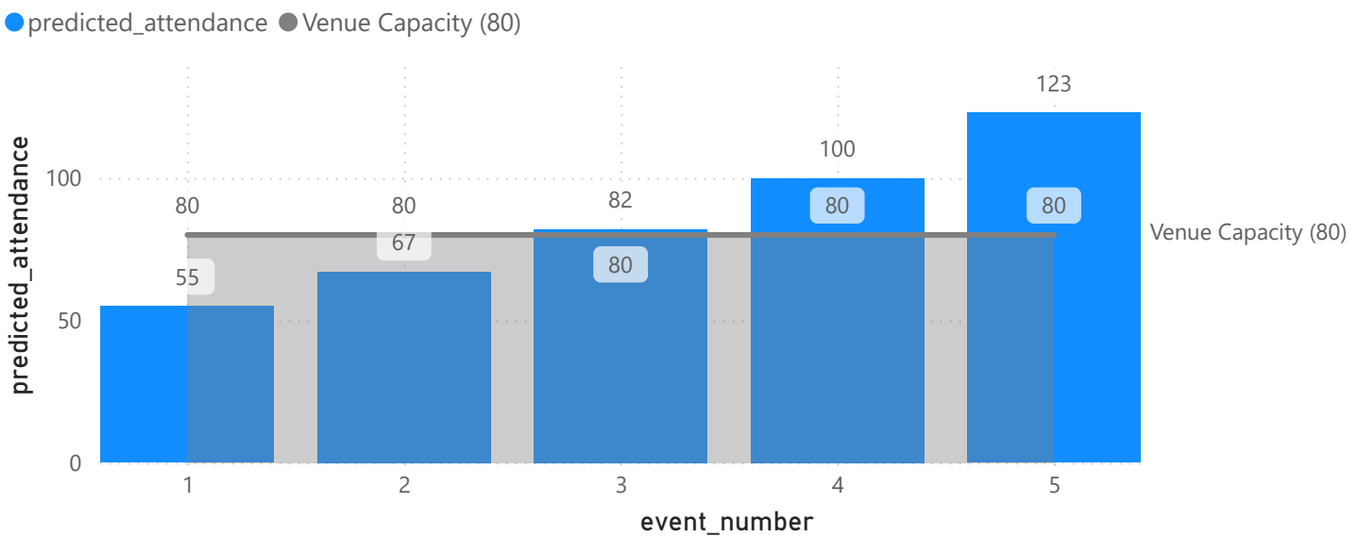
Projected growth, conversion constraints, and capacity strategy

Predicted Next Registrations	Predicted Next Attendance	Forecast Capacity Gap	Required Registrations	Current Registrations	Avg Growth per Event
120	55	25	175	98	22.3%

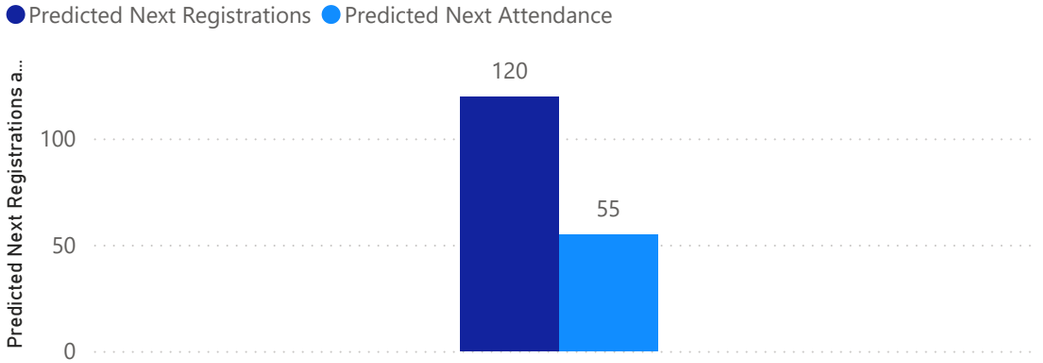
Registration Gap (Current vs Needed)



Projected Attendance vs Venue Capacity



Conversion Gap (Registrations vs Attendance)



Key Insights

Attendance is projected to grow ~22% per event, reaching full capacity within 3–4 events.

However, only ~46% of registrations convert to attendance, making conversion—not demand—the primary constraint.

Approximately 175 registrations (~2.2x overbooking) are required to consistently fill the venue.
